**ALPHA TREATMENT CENTER FOSTER FAMILY AGENCY QUALITY ASSURANCE REVIEW**

The Department of Children and Family Services (DCFS) Out-of-Home Care Management Division (OHCMD) conducted a Quality Assurance Review (QAR) of Alpha Treatment Center Foster Family Agency (the FFA) in February 2015. The FFA has one licensed office located in the First Supervisorial District. The office provides services to the County of Los Angeles DCFS foster children and youth. According to the FFA's program statement, its stated mission is, "to provide short-term and long-term foster care for the treatment of needy male and female minors, ages birth to 17 years."

The QAR looked at the status of the placed children's safety, permanency and well-being during the most recent 30 days and the Foster Family Agency's practices and services over the most recent 90 days. The FFA scored at or above the minimum acceptable score in 8 of 9 focus areas: Safety, Permanency, Placement Stability, Visitation, Engagement, Service Needs, Assessment & Linkages, and Tracking & Adjustment. OHCMD noted opportunities for improved performance in the focus area of Teamwork.

The FFA provided the attached approved Quality Improvement Plan addressing the recommendations noted in this report. In July 2015, OHCMD Quality Assurance Reviewer discussed results of the QAR and provided the FFA with technical support to address methods for improvement in the area of Teamwork.

If you have any questions, your staff may contact me or Aldo Marin, Board Relations Manager, at (213) 351-5530.

*"To Enrich Lives Through Effective and Caring Service"*

**ALPHA TREATMENT CENTER FOSTER FAMILY AGENCY  
QUALITY ASSURANCE REVIEW (QAR)  
FISCAL YEAR 2014-2015**

**SCOPE OF REVIEW**

The Out-of-Home Care Management Division (OHCMD) conducted a Quality Assurance Review (QAR) of Alpha Treatment Center Foster Family Agency (the FFA) in February 2015. The purpose of the QAR is to assess the FFA's service delivery and to ensure that the FFA is providing children with quality care and services in a safe environment, which includes physical care, social and emotional support, education and workforce readiness, and other services to protect and enhance their growth and development.

The QAR is an in-depth case review and interview process designed to assess how children and their families are benefiting from services received and how well the services are working. The QAR utilizes a six-point rating scale as a *yardstick* for measuring the situation observed in specific focus areas. The QAR assessed the following focus areas:

Status Indicators:

- Safety
- Permanency
- Placement Stability
- Visitation

Practice Indicators:

- Engagement
- Service Needs
- Assessment & Linkages
- Teamwork
- Tracking & Adjustment

For Status Indicators, the reviewer focuses on the child's functioning during the most recent 30 day period and for Practice Indicators, the reviewer focuses on the FFA's service delivery during the most recent 90 day period.

For the purpose of this QAR, interviews were conducted with three focus children, three Department of Children and Family Services (DCFS) Children's Social Workers (CSWs), three FFA staff members, and three certified foster parents.

At the time of the QAR, the placed children's average number of placements was one. Their overall average length of placement was 13 months and their average age was 11. The focus children were randomly selected. None of the focus children selected were included as part of the sample for the 2014-2015 Contract Compliance Review.

**QAR SCORING**

The FFA received a score for each focus area based on information gathered from on-site visits, agency file reviews, DCFS court reports and updated case plans, and interviews with the FFA staff, DCFS CSWs, service providers, and the children. The minimum acceptable score is 6 in the area of Safety and 5 in all remaining areas.

Focus Area	Minimum Acceptable Score	FFA QAR Score	FFA QAR Rating
<b>Safety</b> - The degree to which the FFA ensures that the child is free of abuse, neglect, and exploitation by others in his/her placement and other settings.	6	6	<b>Optimal Safety Status</b> - The focus children are optimally and consistently avoiding behaviors that cause harm to self, others, or the community and are free from abuse, neglect, exploitation, and/or intimidation in placement but rarely may present a behavior that has low or mild risk of harm. The focus children may have had related history, diagnoses, or behavior presentations in the past but may have presented risk behaviors at a declining or much reduced level over the past 30 days.
<b>Permanency</b> - The degree to which the child is living with caregivers, who are likely to remain in this role until the child reaches adulthood, or the child is in the process of returning home or transitioning to a permanent home and the child, the FFA staff, caregivers and CSW, supports the plan.	5	5	<b>Good Status</b> – The focus children have substantial permanence. The focus children live in a family setting that the children, FFA staff, caregivers, caseworker, and team members have confidence will endure lifelong.
<b>Placement Stability</b> - The degree to which the FFA ensures that the child's daily living, learning, and work arrangements are stable and free from risk of disruptions and known risks are being managed to achieve stability and reduce the probability of future disruption.	5	5	<b>Good Stability</b> - The focus children have substantial stability in placement and school settings with only planned changes and no more than one disruption in either setting over the last 12 months with none in the past six months. The children have established positive relationships with primary caregivers, key adult supporters, and peers in those settings. Any known risks are now well controlled.

ALPHA TREATMENT CENTER FOSTER FAMILY AGENCY QUALITY ASSURANCE REVIEW  
PAGE 3

Focus Area	Minimum Acceptable Score	FFA QAR Score	FFA QAR Rating
<b>Visitation</b> - The degree to which the FFA staff support important connections being maintained through appropriate visitation.	5	5	<b>Substantially Acceptable Maintenance of Visitation &amp; Connections</b> - Generally effective family connections are being sought for all significant family/Non Related Extended Family Members (NREFMs) through appropriate visits and other connecting strategies.
<b>Engagement</b> - The degree to which the FFA staff working with the child, biological family, extended family and other team members for the purpose of building a genuine, trusting and collaborative working relationship with the ability to focus on the child strengths and needs.	5	5	<b>Good Engagement Efforts</b> - To a strong degree, a rapport has been developed such that the FFA staff, DCFS CSWs, certified foster parent and the focus children feel heard and respected. Reports indicate that good, consistent efforts are being used by the FFA staff as necessary to find and engage the focus children, caregivers and other key people.
<b>Service Needs</b> - The degree to which the FFA staff involved with the child, work toward ensuring the child's needs are met and identified services are being implemented and supported and are specifically tailored to meet the child's unique needs.	5	5	<b>Good Supports &amp; Services</b> - A good and substantial array of supports and services substantially matches intervention strategies identified in the case plan. The services are generally helping the focus children make progress toward planned outcomes. A usually dependable combination of informal and formal supports and services are available, appropriately used, and seen as generally satisfactory.
<b>Assessment &amp; Linkages</b> - The degree to which the FFA staff involved with the child and family understand the child's strengths, needs, preferences, and underlying issues and services are regularly assessed to ensure progress is being made toward case plan goals.	5	5	<b>Good Assessment and Understanding</b> - The focus children are functioning and support systems are generally understood. Information necessary to understand the focus children's strengths, needs, and preferences is frequently updated. Present strengths, risks, and underlying needs requiring intervention or supports are substantially recognized and well understood.

ALPHA TREATMENT CENTER FOSTER FAMILY AGENCY QUALITY ASSURANCE REVIEW  
PAGE 4

Focus Area	Minimum Acceptable Score	FFA QAR Score	FFA QAR Rating
<b>Teamwork</b> - The degree to which the "right people" for the child and family, have formed a working team that meets, talks, and makes plans together.	5	4	<b>Minimally Adequate to Fair Teamwork</b> - The team contains some of the important supporters and decision makers in the focus children's lives, including informal supports. The team has formed a minimally adequate to fair working system that meets, talks, and/or plans together; at least one face-to-face team meeting has been held to develop plans.
<b>Tracking &amp; Adjustment</b> - the degree, to which the FFA staff who is involved with the child and family is carefully tracking the progress that the child is making, changing family circumstances, attainment of goals and planned outcomes.	5	5	<b>Good Tracking and Adjustment Process</b> - Intervention strategies, supports, and services being provided to the focus children are generally responsive to changing conditions. Frequent monitoring, tracking, and communication of the focus children's status and service results to the team are occurring. Generally successful adaptations are based on a basic knowledge of what things are working and not working for the focus children.

**STATUS INDICATORS**  
(Measured over last 30 days)

**What's Working Now (Score/Narrative of Strengths for Focus Area)**

**Safety (6 Optimal Safety Status)**

**Safety Overview:** The FFA provided optimal safety status for each of the focus children. The FFA staff ensures that the focus children feel safe in their placements and the certified foster parents provide a safe living environment. The FFA utilizes various methods to ensure the safety of placed children. The FFA provided its certified foster parents with training on different topics such as Cardiopulmonary Resuscitation (CPR); child development and Title 22 regulations. The certified foster parents also received training on reporting when placed children present self-endangering behaviors or behaviors that place others at risk. In cases where a child exhibits self-harming behaviors or are a danger to others, the certified foster parents are trained to immediately inform the FFA social workers. Together, the certified foster parent and the FFA social worker develop a safety plan to ensure the safety of everyone in the home. The FFA also provided the certified foster parents

ALPHA TREATMENT CENTER FOSTER FAMILY AGENCY QUALITY ASSURANCE REVIEW  
PAGE 5

with a 24-hour emergency contact number for the local law enforcement; Psychiatric Mobile Response Team; and the DCFS Child Protection Hotline.

As reported by the FFA social workers, during their home visits they conduct visual inspections of the certified foster homes to ensure there are no observable hazards. The FFA social workers reported that they interview the focus children privately to make certain that they feel safe in their certified foster homes.

All three of the focus children reported that their certified foster homes are a safe place to live. Each of the focus children stated that there have been no safety concerns while being placed in their current foster homes. The first focus child reported that she feels safe at this foster home because her foster parents provide assistance whenever she asks. The second focus child reported feeling safe in her current placement because her certified foster parent always listens to her and provides her with supervision and support. The focus child stated that if anything happened to her she would be able to report it to her certified foster parent, DCFS CSW, FFA social worker and her teacher. The third focus child reported feeling safe because her certified foster parent is always at home with her and she feels comfortable talking to her certified foster parent and knows that she can get support from her.

The certified foster parent for the first focus child reported that the FFA's 24-hour emergency contact number is very helpful to her because she is able to speak with her FFA social worker during emergencies. The second focus child's certified foster parent stated that the trainings she receives from the FFA such as CPR are very helpful to her. The certified foster parent for the third focus child reported that she always uses common sense and observation to find out if the focus child presents behaviors that place her or others at risk. The DCFS CSWs interviewed stated that they did not have any safety concerns regarding the FFA's certified foster homes.

The FFA complied with the protocols and reported Special Incident Reports (SIRs) via the I-Track database in a timely manner. The FFA submitted two SIRs during the past 30 days. The two SIRs included one incident with police involvement where a biological parent was trying to obtain the address of a certified foster home; and one incident related to the certified foster parent's health. None of these SIRs were related to the focus children. According to the Out-of-Home Care Investigations Section, there were no substantiated referrals or open investigations for the FFA during the last 30 days.

### **Permanency (5 Good Status)**

**Permanency Overview:** The FFA provided substantial permanence for each of the focus children. The FFA provides services that correspond to the permanency plan for each of the focus children. The FFA engages the DCFS CSWs in discussions regarding court orders pertaining to permanency for the focus children. The FFA social workers and certified foster parents support the focus children in maintaining contact with their family members and important people in their lives.

The permanency plan for the first focus child is adoption. The focus child reported that both she and her certified foster parents are committed to the plan. The certified foster parent reported that she and her family members are working hard to make the focus child feel comfortable, as if she was in

ALPHA TREATMENT CENTER FOSTER FAMILY AGENCY QUALITY ASSURANCE REVIEW  
PAGE 6

her own home. The certified foster parent consistently encourages the focus child to verbalize her feelings regarding her certified foster parent adopting her and her two siblings.

The second focus child is receiving reunification services with her mother. The focus child stated that she is pleased staying with her foster parent and wants to continue to live with her if reunification is not successful. Her certified foster parent stated that she works with the focus child's mother to arrange visitation. The certified foster parent fully supports the plan to reunify with her mother; however the certified foster parent reported that the focus child has become part of her family and she is willing to continue to care for her if reunification does not occur.

The third focus child is receiving reunification services with her mother. The focus child stated that her certified foster parent always encourages her to maintain contact with her mother. The focus child reported that she enjoys living with her certified foster parent. The certified foster parent stated that they get along very well, and if reunification is not feasible, the focus child can stay as long as she wants. In March 2015, the focus child successfully reunified.

### **Placement Stability (5 Good Stability)**

**Placement Stability Overview:** The FFA provides substantial stability for the focus children in which the focus children were able to enjoy positive relationships with the certified foster parents. To enhance placement stability the FFA provides the certified foster parents with adequate support and ongoing training based on the needs of the certified foster parents. The FFA social workers discuss with the DCFS CSWs each focus child's needs prior to placement to ensure a good match with the certified foster parents is made. The FFA social workers' weekly visits to the certified foster homes and meetings with the focus children and certified foster parents are also used as a method to continuously assess the well-being of the focus children.

There have been no disruptions for any of the focus children in their placement or school settings. The focus children reported that their certified foster parents are meeting their needs such as providing adequate supervision and guidance. The focus children reported that they felt safe and comfortable in their current placement because their foster parents are supportive and helpful in addressing their needs. Each of the focus children also stated that there was nothing that could be changed about their placement.

The certified foster parent for the first focus child stated that she works very well with the DCFS CSW and she received a lot of support from the DCFS CSW and FFA social worker. The certified foster parent for the second foster child reported that she received the focus child's history from the FFA social worker as a way to help her better understand how to work with the focus child. The third focus child's certified foster parent reported that the FFA social worker provided her with adequate information prior to the focus child being placed in her home and by having this information she felt more comfortable to handle issues as they arise, reducing the likelihood of placement disruption.

### **Visitation (5 Substantially Acceptable Maintenance of Visitation & Connections)**

**Visitation Overview:** The FFA has established generally effective visitation and maintenance of family connections. The certified foster parents and FFA social workers support important connections being maintained with placed children and their family members through appropriate

visitation. In situations where visits are not a viable option, the FFA social workers and certified foster parents always encourage and support alternative methods of communication in order for the focus children to maintain connections with important people in their life. To support visitation, the FFA social workers and certified foster parents transport and monitor visits for the focus children as needed. The FFA documents the focus children's visitation plans in their Needs and Services Plans (NSPs). The FFA also keeps logs regarding visitation and if visits are missed, the FFA social worker follows up with the certified foster parents and family members to reschedule the visits in a timely manner. The DCFS CSWs interviewed stated that the FFA supports the visitation plan for the focus children.

The first focus child reported that she has visits with her grandmother once per month. Her certified foster parent reported that since the focus child's grandmother has shown interest in visiting with the focus child, the certified foster parent provides the grandmother flexibility with visitation. The certified foster parent transports the focus child to a neutral place for the visit and monitors the visit.

The second focus child has unmonitored overnight visits with her mother and brother. The focus child reported that she enjoys her visits with her mother and brother. She stated that her mother picks her and her brother up at their certified foster homes and they eat together at the mall. The focus child reported that she feels more attached to her mother and her relationship with her brother is much better than before. Her certified foster parent stated that she always follows up with the focus child to ensure that visits with her mother are going well.

The third focus child reported that her parents reside outside of the County. The focus child has unmonitored weekend visits with her aunt and her cousins. She is also able to spend holidays and vacation time with them. The focus child enjoys her visits with her aunt and cousins. Her certified foster parent reported that she always encourages the focus child to maintain contact with her parents through telephone and her parents are encouraged to call her too.

**PRACTICE INDICATORS**  
*(Measured over last 90 days)*

**What's Working Now (Score/Narrative of Strengths for Focus Area)**

**Engagement (5 Good Engagement Efforts)**

**Engagement Overview:** The FFA developed good rapport between the DCFS CSWs, certified foster parents and the focus children. The FFA has made reasonable efforts to engage key people. During their home visits, the FFA social workers always ensure that connections are made between the focus children, and their certified foster parents. The FFA social workers also maintain regular contact with the focus children's DCFS CSWs by telephone and email.

All of the focus children reported that their concerns are heard and they feel respected. Each of the focus children reported that they are able to discuss their issues and concerns with their family members, certified foster parents, FFA social workers, and DCFS CSWs, without any problems.

The first focus child reported that she is able to ask her foster parents for assistance and her certified foster parents really listen to her and make her feel that her concerns are being heard. The second focus child reported that her concerns and needs are heard and respected by her certified foster parent and DCFS CSW. She stated she has no problem discussing her concerns with them. The third focus child reported that she feels very comfortable discussing her needs with her certified foster parent because she always listens to her.

The FFA social workers, certified foster parents, DCFS CSWs and focus children agree that engagement efforts are made on a regular basis and reasonable efforts have been made by the FFA to engage key parties involved in the focus children's lives.

### **Service Needs (5 Good Supports & Services)**

**Service Needs Overview:** The FFA provided the focus children with a good array of supports and services to help the focus children make progress toward their planned outcomes. The focus children are receiving therapeutic services to address their mental health needs. Therapeutic services are designed to assist the focus children with communicating their needs in their relationships with their parents, extended family members and certified foster parents.

The first focus child is currently participating in speech therapy once a week at school. The focus child also receives tutoring services, as she struggles in math and reading. The certified foster parent assists the focus child with her math assignments and also reads with the focus child daily. The focus child reported that she has shown a slight improvement in her grade and also her reading level.

The second focus child reported that she is receiving family therapy to assist her in communicating her needs to her mother and improving her relationship with her brother. The focus child does not present any academic challenges; however, she participates in an after school tutoring program at her school to complete her homework or special projects. The certified foster parent also attends the focus child's school conferences to understand how she performs at school.

The third focus child is receiving individual counseling to increase her ability to express her feelings with her certified foster parent. The focus child reported that she is the teacher's assistant and is also involved in a youth group at her church.

Each of the certified foster parents reported that the support system they receive from the FFA is great because the FFA social workers always respond expeditiously and provide them with support and direction. In addition, the FFA social workers collaborate with the DCFS CSWs, the focus children, and their certified foster parents to develop their NSP goals. According to the DCFS CSWs, they collaborate with the FFA social workers and the certified foster parents to determine the services needed for the focus children.

### **Assessment & Linkages (5 Good Assessments and Understanding)**

**Assessment & Linkages Overview:** The focus children's functioning, challenges, and support systems are generally understood by all parties involved. The focus children's strengths and underlying needs were assessed by the FFA and are recognized and well understood among team

members. Educational supports, such as tutoring and speech therapy are provided, and participation in extracurricular activities is always encouraged by the FFA.

As reported by the FFA social workers, they meet with the focus children and certified foster parents to assess the focus children's progress. The DCFS CSWs reported that they review the focus children's NSP goals and provide feedback to the FFA staff and certified foster parents. If it is determined that the focus children are not progressing toward meeting their case plan goals, the FFA social workers discuss this with the focus children, certified foster parents and DCFS CSWs and modify the goal when necessary to meet the children's needs.

### **Tracking & Adjustment (5 Good Tracking & Adjustment Process)**

**Tracking & Adjustment Overview:** Intervention strategies, supports, and services provided to the focus children were generally responsive to changing conditions. The FFA tracks the implementation of strategies, supports, and services via monthly reports, progress notes, NSPs, and communication with the focus children. The FFA ensured the DCFS CSWs were updated with the focus children's progress and any changes regarding the focus children. The services and supports for the focus children are regularly assessed and modified to ensure progress is being made toward their case plan and NSP goals. The FFA social worker stated that they track the focus children's progress during their regular face-to-face visits to the certified foster homes. The FFA is aware of the changing needs of the focus children and the FFA therapist modifies services being provided on an as-needed basis.

An example of the tracking and adjustment of services can be seen with the first focus child who was behind academically and struggling with math. The certified foster parent discussed her concerns with the focus child's schoolteacher. Following the discussion, the focus child was moved to the front of the classroom to give her the ability to ask questions. This change has made a big difference with the focus child. She is now showing improvement in math.

### **What's Not Working Now and Why (Score/Narrative of Opportunities for Improvement)**

#### **Teamwork (4 Minimally Adequate To Fair Teamwork)**

**Teamwork Overview:** The FFA involved some of the important supporters in each of the focus children's lives. The focus children, certified foster parents, FFA social workers, and DCFS CSWs are familiar with the team members for the focus children. All interviewed parties reported that there is consistent communication between the FFA social worker, DCFS CSW, certified foster parents, and the focus children. However, there have been no face-to-face team meetings facilitated by the FFA. The FFA could benefit from the participation of the focus children and all key team members to address the needs of the focus children and make decisions together as a whole team.

As reported by the focus children, FFA social workers and certified foster parents, formal Child and Family Teams have not been identified and established. However, the focus children are able to identify their team members and reported that there are no issues with communication between all team members.

## **NEXT STEPS TO SUSTAIN SUCCESS AND OVERCOME CURRENT CHALLENGES**

In January 2015, OHCMD Quality Assurance Reviewer provided the FFA with technical support related to findings indicated in the 2013-2014 Contract Compliance Review. Technical support and training provided to the FFA related to SIRs being appropriately documented and cross-reported to OHCMD; Title 22 rules and regulations; inquiry with OHCMD for historical information prior to certification; annual documentation of certified foster parents regarding vehicle maintenance; developing timely, comprehensive updated and quarterly NSPs; children's personal needs and economic well-being; assisting children with updating their Life Book and staff personnel records.

In July 2015, OHCMD Quality Assurance Reviewer discussed results of the QAR and provided the FFA with technical support to address methods for improvement in the area of Teamwork. The FFA submitted the attached Quality Improvement Plan (QIP). OHCMD quality assurance staff will continue to provide ongoing technical support, training, and consultation to assist the FFA in implementing their QIP.

Date Amended Quality Improvement Plan Submitted: January 6, 2016

**ATTN: Kong Ng, CSA I - DCFS**

Out-of-Home Care Management Division

9320 Telstar Avenue, Room 216

El Monte, CA 91731

**Addendum:** Please review below revised Quality Improvement Plan. The agency will plan to have the Social Services Director implement the below Quality Improvement Plan during the agency training on Wednesday, January 13, 2016.

Dear Kong,

Thank you for taking the time to speak with me recently regarding an identified area of improvement. You discussed the need to improve teamwork by means of including the biological family in the team efforts towards reunification. After discussing this with our Administrative Team, we have developed the following avenues which can be taken to better include the biological family in the process towards reunification:

**Developing Teamwork with the Biological Parents:**

In considering the development of the Needs and Services Plan, the Alpha Treatment Centers Social Worker will provide a monthly contact to the biological parents who are receiving reunification services to request their input towards the development of the child's Needs and Services Plan goals. The ATC Social Worker will include input the biological parent provides when developing the goals for the child as appropriate. The biological parents, who are receiving reunification services, will be asked to provide feedback regarding what they have observed the needs of the child to be as well as what positive reinforcements they believe might work well with that particular child. These goals will be reviewed with the foster parent and the concerning foster child, age 10 and above, as well and will be submitted to the County Social Worker in the NSP report. The ATC Supervisor will review the NSP reports.

**Family Centered Conference with CSW:** The assigned ATC Social Worker can request that the CSW coordinate a Family Centered Conference by requesting the CSW to submit the DCFS 174 Referral form and by inviting the foster family, biological family, the children and any other approved participants, when appropriate and at the discretion and authorization of the CSW as outlined in the **DCFS Policy 0070-548.03:** [http://policy.dcfslacounty.gov/default.htm#Family\\_Centered\\_Conferen.htm](http://policy.dcfslacounty.gov/default.htm#Family_Centered_Conferen.htm)

**Intake Procedures:** The Intake Worker can ask that the CSW, or County Representative processing the intake/placement, provide the phone number for the biological parents at the time of intake.

**After Intake:** The assigned ATC Social Worker can request that the CSW make them aware of any the biological parent's responses if there are any preferred foods, activities, cultural and/or religious rituals to which the child(ren) is accustomed.

Alpha Treatment Centers FFA is committed to providing quality service to our foster youth, meeting the needs of our foster youth and continues to provide ongoing training to our FFA Social Work Staff as well as our Certified Foster Parents to ensure that our agency continues to comply with all CCL Regulations and LA County Contract Requirements.

Should you have any questions or need any additional information, please do not hesitate to contact me at (626) 939-9100 ext. 113 and I will be happy to assist you.

*Respectfully,*

**Rachel Dyer, MSW**
